## POLYHOSE PERFORMS

Polyhose manufactures the industry's widest range of fluid conveyance systems, efficiently serving U.S. distributors and OEM customers and consistently meeting global hose standards. Our products shape the work of a variety of industries, including the paint spray market with high-quality Exitflex products.

Part of the Polyhose brand family, Exitflex manufactures paint spray tips, guards, and other products in Switzerland—now available in the North American market from our new 52,000-square-foot North Carolina facility. We've got the shortest lead time and widest product range in the industry, with products in stock and ready to ship immediately.

Connect with us today and discover how **Polyhose Performs—100% of the time.**
